BLOCKDOJO

Staff guide

One cave for the whole center. The TV shows the mine. The phone pays the coins. Every screen shares the same book.

1

Open the cave

On the TV, open the Block Dojo link. That screen is the mine, the ticker, and the belt show.

2

Open the desk

On a phone, open the same link and add /sensei. That screen pays coins, hands out prizes, and runs Belt up.

3

Enter once

Each device asks for the access code the first time. It remembers. Both screens then join the same cave.

CNCE2026

Access code. There is no second dojo code. Opening the app again does not start a new book.

DURING CLASS

Pay the ninja

Type the name. Tap the coins. The TV shows it.

DESK

A payout

1. Search the ninja and tap their name.
2. Hit +5, +10, +25, or type a custom amount and Add.
3. The coins leave the vault and land on that card.
4. The cave ticker shows the payout.

Wrong tap? Hit the undo line. You can undo the last few steps.

Each tap

25 coins max. Custom amounts stop there too.

Same ninja

15s between pays, so a double tap cannot double-pay.

The day

75 coins on that card. Welcome coins count. A second card does not reset it.

SHOP

Redeem

Pick the ninja, then tap the prize. It needs enough coins, stock, and the belt. The hand-off shows on the TV. Redeemed coins go back to the vault.

CEREMONY

Belt up

Belt up moves one rank and plays that belt's show on the TV. It loops until someone taps the TV or hits a key there. The phone does not stop it.

BONUS

Achievements

Daily and weekly bonuses pay on top of the 75. Each ninja can take each one once in that period. Open Achievements, pick the ninja, hit Give.

Changing a belt on the roster form only posts a short line on the TV. The full ceremony plays from Belt up.

BELT PATH

White · Yellow · Orange · Green · Blue · Purple · Brown · Red · Black · Bronze · Silver · Platinum · Gold

One rank at a time. Stills from every ceremony are on the next pages. White has no show.

THE BOOK

One card per kid

The 75 lives on the card, not on a new name you type later.

Add a ninja

- Roster, then Add ninja. First name and one last initial.
- Welcome coins are 10 max unless the director pin is open, and they count toward today's 75.
- If that name is already here, even resting, the desk refuses a second card. Bring the old card back.
- Two real kids with the same name and initial need a nickname or a different initial.

Rest a ninja

- Edit the card and mark it archived.
- Show archived, edit, and uncheck it to bring the same card back. Today's coins stay.
- After 30 days of rest, coins still on that card return to the vault. The ledger records it.

CLOSE OF DAY

Save the day

Opens an Outlook draft. It does not send. The draft has the day's pays, redeems, undos, prizes to hand out, and the closing balances. If the day was long, the full ledger is copied. Paste it into the draft, then send when it looks right.

THE VAULT

Where coins live

Pays come out of the vault. Redeems, undos, and 30-day returns put coins back. While a screen has the cave open, the mine adds 10 to 50 coins a minute. It does not catch up overnight.

010125

Director pin. Needed for prices, stock, new prizes, and fixing a balance. It stays open 10 minutes. Five wrong tries lock the pad for 30 seconds.

TV

The cave

Mine, ticker, and the belt show. Leave this screen on during class so the mine can add coins.

PHONE

The desk

Pays, prizes, roster, and Belt up. Same access code. Same cave. Same 75.

CLOSE

The draft

Save the day before you leave. Read the draft, then send it when the coins and prizes look right.

BELT SHOW

Yellow through Brown

White is the starting belt. There is no ceremony for white. Belt up from white plays Yellow. These are stills from the TV show.

Brown

BELT SHOW

Red through Gold

Gold is the last belt. Belt up stops there. The show takes the whole TV, pauses the cave music, and loops until the TV is tapped or a key is pressed.
